

Unlock the Mystery of Math Story Problems

Know the Code!

In order to solve any math story problem, remember the code:

C. U. B. S.

¹Read the problem first. ²Go back and use your red, green, and blue colored pencils to help you solve the problem.

C: **CIRCLE** the verb in the statements or questions where you are asked to do something. (Red)

Some Math Verbs: find, draw, solve, list, explain, plot, label, make, use, estimate, round, measure, count, show, do, etc. When the verb is not obvious, add “tell” in front of the question.

U: **UNDERLINE** the information after the verb, which tells you what you need to do. (Green)

B: **BOX** the information you need to do or use to solve the problem. (Blue)

Now you are ready to solve the problem!

S: **SHOW** your work and label your answer every time.

CHECK YOUR WORK

YOU ARE DONE!
Great Job!
