

SAMPLE

I want to buy a toy that costs \$1.00. I have 59¢ in my pocket. How much more money do I need in order to be able to buy the toy?
(This is what I have):

Step 1 - Identify the coins you have

Step 2 - COUNT UP to get to \$1.00

Step 3 - Identify the amount of money needed to get to \$1.00

ANSWER: I NEED 41¢ more to get to \$1.00.
